WEB DEVELOPER

UI/UX Designer and tech-savvy professional with hands-on experience leading sales planning and management, implementing several programming languages to design and deliver high-quality full stack, front-end, and back-end applications development.

Solid track record of implementing robust strategies in compliance to drive process improvements and attain targeted sales revenue. Demonstrated history of designing and improving user interfaces, as well as identifying and troubleshooting website issues to ensure optimum performance. Skilled in navigating GitHub, Heroku, and Netlify and developing website solely through frameworks, such as Bootstrap and Materialize, whilst writing pure JS. Proficient at systems analysis, web site design, and application integration to improve system dependability, boost productivity, and implement system efficiencies. Ability to manage full life cycle of web/software development requirements, including planning, design, debugging, and maintenance.

- Articulate communicator, building and reinforcing strong relationships with management and providing excellent customer service.
- Known for utilizing quick learner approach to continually expand personal knowledge and gain new skills within fast paced environments.
- Worked on projects based in teams and utilizing time, knowledge and proficiency to achieve end goal for website functionality

SKILLS

HTML/CSS, JavaScript, SQL/NoSQL, Node.js, Express.js, Object-Oriented Programming, Backend/Frontend, React, GraphQL Handlebars, API (server-side & third-party), Computer Science, MVC, Communication.

WORK EXPERIENCE

Full Stack Developer – Freelance

2021 – Present

Develop databases, user interactions on web sites and front-end designer and backend functionality to ensure application responsiveness. Collaborate with graphic designers on site design features, API's and designing SQL schemas design and development. Maintain latest web apps and programming languages to meet technical and consumer requirements including making sure websites are fully responsive to mobile and other platforms.

Sales Associate – Tilly's

2018 – 2020

Oversaw inventory, packaging, POS, cashier, customer liaison, restocking and delivered effective customer service. Performed early morning hours and clean and rearranged clothing materials. Provided proficient customer service and applied wardrobe recommendations for customers shopping for specific occasions/exigencies. Maintained high levels of client satisfaction by providing great sales service and determined needs of consumer and delivered support and information on product characteristics.

Fitness 19– Sales Associate

Feb – Mar 2020

I've helped customers with membership questions over phones, email, or text. I've overseen monthly, quarterly, and yearly sales targets. Provided customer service and tours of gym when working with newly joined members and considering future memberships. Responsible for cleaning any used/unused machines and weights hourly and assured proper functionality making it so members are satisfied with any workouts. (Reasoning for short time period of work was for recent Covid shutdown).

EDUCATION & CERTIFICATIONS

Full Stack Coding Online Program, Graduated, University of California Irvine Continuing Education, 2021
